

# Make Your Next Business Call with IPFone Direct Routing for Microsoft Teams

**Enhance Your Microsoft Teams Collaboration Experience with Direct Routing**

IPFone Direct Routing brings robust, enterprise-grade communications and collaboration capabilities to Microsoft Teams, whether you are using Microsoft Teams on the web or the app. Meet via video, collaborate within Office 365 applications or make calls all on the same platform, no matter where you are.

## IPFone Direct Routing Features

- Voice-Enabled**  
Make and receive calls with IPFone cloud voice via Microsoft Teams on desktop, laptop, or mobile devices.
- Premium Voice Features**  
Integrate IVR, Contact Center, Call Reporting, and other IPFone services directly into your Microsoft Teams experience.
- Maximum Reliability and Business Continuity**  
IPFone's voice network architecture and established integration with Microsoft ensures you won't miss a call, even during an outage.
- One Provider, One Bill**  
A voice-enabled Microsoft Teams seat on the IPFone network is your one-stop shop, complete with white-glove support and account management.
