

POTSBOX Pro

Reliable, Compliant, Future-Ready Analog Line Replacement

POTSBOX Pro is IPFone's enterprise-grade solution for replacing outdated analog (POTS) lines. Designed for mission-critical systems like fire alarms, elevator phones, and security lines, it delivers reliable voice and data services over 4G/5G LTE or Ethernet. Fully compliant with key safety regulations and featuring built-in redundancy and power backup, **POTSBOX Pro** ensures your systems stay online — without costly infrastructure changes.

Key Features and Benefits

- **Up to 16 Analog Lines**
Supports 2, 4 or 8 port ATAs
- **Plug-and-Play**
No rewiring needed (RJ31X/66 block ready)
- **4G/5G LTE & Ethernet**
Dual connectivity with antenna extension option
- **Power Backup**
Built-in mini UPS (12–48 hours)
- **Full Compliance**
NFPA 72, HIPAA, PCI, TAA
- **Rugged Design**
NEMA-rated enclosure (11" x 7" x 7")
- **Managed Deployment**
On-site installation, signal testing, and number porting
- **24/7 Monitoring & Support**
Nationwide professional service

Supported Use Cases

**Fire and burglar
alarm panels**

**Elevator and
emergency phones**

**Panic buttons and
intercoms**

Fax machines

**Security gates and
entry systems**
